

IMPORTANT ADVICE

100% GOLD - SILVER METALLIC THREAD EMBROIDERY

Dear Customer,

this linen has been produced and manufactured with the best quality of Egyptian Cotton and with the most modern technologies.

Due to presence of a gold-silver metallic embroidery that enriches this precious linen, it is very important to pay a particular attention on linen care.

Please follow our specific advices here enclosed (and inside each parcel containing these special table linens) and handle the linen avoiding any pressure or action that can damage the metallic embroidery.

Your faithfully.

WASHING

- At a maximum washing temperature of 40°C with a very mild process and neutral-soap based detergent.

- **WARNING:** Don't use chlorine agent or caustic soda.

DRYING

- Dry up naturally.

IRONING

- Iron at a maximum temperature of 110°C with remaining humidity of 30%. Put a cloth in between. Don't press the linen when it is folded up.
